

# Federal Update Federal Geographic Data Committee Recent Activities

U.S. Census Bureau  
MSGIC Quarterly Meeting  
July 22, 2016

# New Address Theme

- The FGDC is in the process of approving a new Address Theme for the National Spatial Data Infrastructure
  - The Census Bureau and DOT will be co-theme leads
  - A National Address Database (NAD) will be the primary data set for this theme
  - See [fgdc.gov](http://fgdc.gov) for more information

# More Highlights

- A National Parcel Data Summit was held in June
  - There remains a demonstrated need for an aggregated National parcel data set
  - Seeking a Federal Agency Champion
- The Geospatial Platform continues to add capabilities for on-line collaboration
  - See for yourself at [geoplatform.gov](http://geoplatform.gov)

# NSDI Framework

- FGDC to provide an updated strategic plan for the National Spatial Data Infrastructure (NSDI)
- For 2017 – 2020
- Developed through collaboration with partners and stakeholders
- A framework, rather than a plan, to be provided to the new administration for guidance
