TUGIS 2013

Maryland's Geospatial Conference

Save the Date
3.19.13

Lower Cost. One Day. New Offerings.

This year's jam-packed one-day conference will feature enhanced hands-on training workshops, new mentoring programs for students and professionals, lightning talks and poster sessions, and that's just the beginning. To make sure everyone has the chance to attend, this year's ticket price will be 80% lower than last year and we are counting on a record-setting crowd. The conference will be held in Towson University's new state of the art College of Liberal Arts building.

We will be in touch with the Call for Papers and registration information soon.
