

MSGIC Fall 2021 Quarterly Meeting

Presentation: State Caucus Update

J.B. Churchill & John Lesko (co-chairs)

Maryland Department of Emergency Management - (MDEM)

<https://www.juvare.com/news/webeoc-connects-with-arcgis-to-save-lives-0/>

Recently Purchased the ArcGIS Extension for WebEOC

REDLANDS, Calif. and NASHVILLE, Tenn.—Intermedix and Esri announced on Thursday the release of the [ArcGIS Extension for WebEOC](#).

The tool will connect the **ArcGIS** mapping technology to **WebEOC**, a crisis information management software.

Maryland Dept. of Transportation / State Highway Administration

- **2022 Kim Lamphier Bikeways Award Winners (updates to - Bikeways Map)**

http://bit.ly/MD_Bikeways

Maryland Dept. of Transportation / State Highway Administration

Mapping Updates:

- State Rail Plan
- State Freight Plan

Maryland State Freight Plan

Purpose of the Freight Plan

To examine existing and projected conditions, and identify policy positions, strategies, and freight projects to improve freight movement efficiency and safety.

Maryland Dept. of Transportation / State Highway Administration

Updates from The Secretaries Office (TSO)

Strategic Blueprint Initiative

Goal - *To Manage and analyze asset data across the Department.*

- Use GIS to assess (visually and analytically)
- Reporting centered on: *pavement, structures, facilities, rail, vehicles/equipment, Major IT Systems, and tunnels.*
- Incorporation of MDE reporting

Maryland Dept. of Transportation / State Highway Administration

Updates from The Secretaries Office (TSO)

Strategic Blueprint Initiative

Goal - *To Manage and analyze asset data across the Department.*

1. Centralized View of Asset Data
2. Geographic View and Analysis
3. Better Search
4. Collaboration & Communication
5. Standardization

Maryland Department of Planning (MDP)

- **Statewide Building Permit Dashboard**
- **Involved in Redistricting & regular updates**
- **25 year Anniversary of MDProperty View**

Property Map Products

MdProperty View Advanced Desktop GIS to use with ESRI's ArcGIS Software

MdProperty View is a visually accessible dataset that allows you to interact with a jurisdiction's tax maps and parcel information and a variety of additional map and data layers using the advanced features of ESRI's latest geographic information systems (GIS) software, ArcGIS®. Easy-to-use search tools help you zoom in to your area of interest on a property map and display a parcel record of interest.

Tax maps, also known as assessments, property or parcel maps, are a graphic representation of real property showing and defining individual property boundaries in relationship to contiguous real property. The primary purpose of these maps is to help State tax assessors locate properties for assessments and taxation purposes. Tax maps are also used by federal, State and local government agencies as well as private sector firms for a variety of analyses and decision making processes.

Snapshot Maryland: Transportation Planning Dashboard

SnapShot Maryland Dashboards is a series of geospatial dashboards and interactive mapping tools produced by the Maryland Department of Planning (Planning) that integrates geospatial and tabular data from a variety of state and local sources to address the operational and long-term planning concerns of state agencies and local governments.

Snapshot Maryland Dashboards initially focused on the integration of Census, land use and transportation data, then broadened its analytic tools to include housing information.

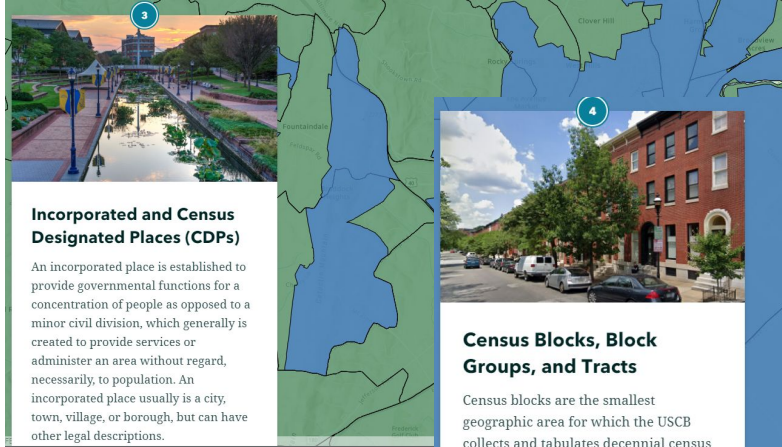

Snapshot Maryland Dashboards is an approach to "geospatial wellness" for all of Planning's dashboards and interactive maps. The goal is to develop easy-to-use, highly functional, relevant, and responsive geospatial planning resources to help users make better informed planning decisions for their communities.

Snapshot Maryland: Transportation Planning Dashboard

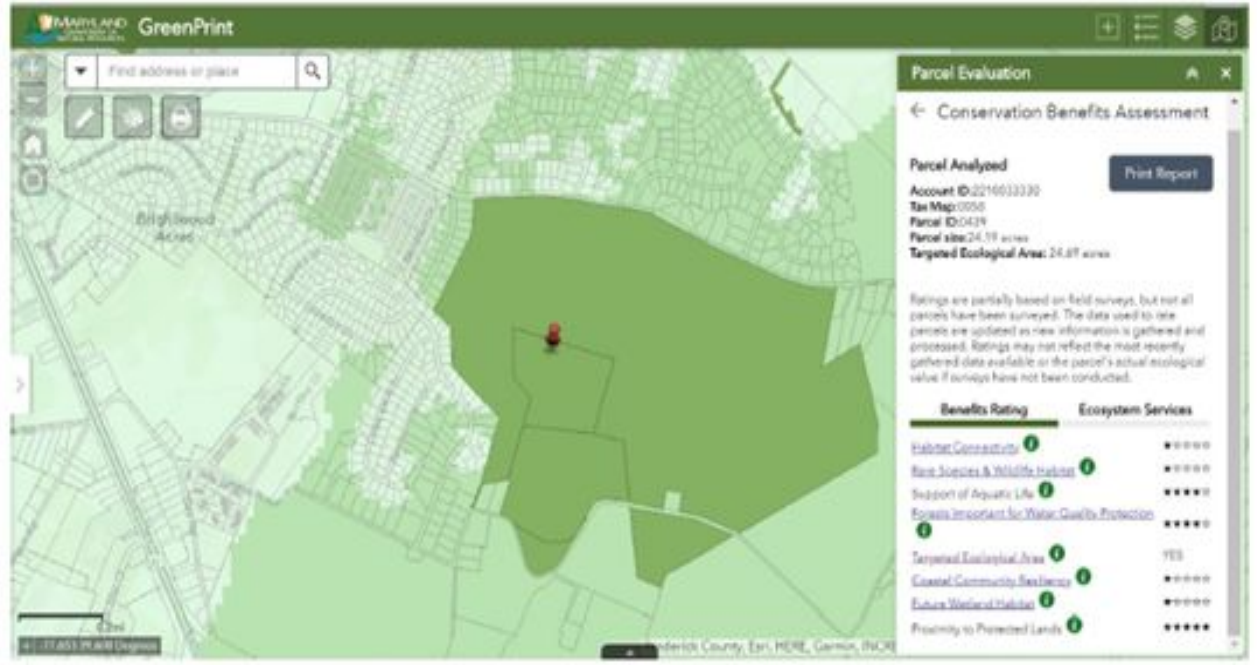

The Snapshot Maryland Transportation Planning Dashboard displays demographic, employment, commuting and other transportation planning information, aggregated at the county, U.S. Census Designated Place (CDP) and Census Incorporated Place (CIP), and Census Tract levels as well as for select data at the traffic analysis zone (TAZ).

Maryland DNR, NOAA and MES; Parcel Evaluation Tool

Maryland DNR, NOAA and MES; Parcel Evaluation Tool

- The **Parcel Evaluation Tool** provides a **Conservation Benefits and Ecosystem Service Assessment Report Card** for every land parcel in Maryland.
- Report card values reflect many of the ecological priorities established for Stateside Program Open Space (POS).
- Additionally, land trusts have asked for this information to help them target and evaluate lands for protection, as well as to document conservation values for tax benefits.
- Tool compliments existing internal DNR parcel evaluation process.

Maryland Parcel Evaluation Tool

Conservation Benefits Assessment

Habitat Connectivity

Rare Species & Wildlife Habitat

Support of Aquatic Life

Forests Important for Water Quality Protection

Targeted Ecological Area

Coastal Community Resiliency

Future Wetland Habitat

Proximity to Protected Lands

Parcel Analyzed

Account ID:020300029043249

Tax Map:0041

Parcel ID:0098

Parcel size:422.08 acres

Targeted Ecological Area: 24.46 acres

[Print Report](#)

Ratings are partially based on field surveys, but not all parcels have been surveyed. The data used to rate parcels are updated as new information is gathered and processed. Ratings may not reflect the most recently gathered data available or the parcel's actual ecological value if surveys have not been conducted.

Benefits Rating	Ecosystem Services
Habitat Connectivity 	★★★★☆
Rare Species & Wildlife Habitat 	★★★★☆
Support of Aquatic Life 	★★★★☆
Forests Important for Water Quality Protection 	★★★★☆
Targeted Ecological Area 	YES
Coastal Community Resiliency 	★★★★★
Future Wetland Habitat 	★★★★★
Proximity to Protected Lands 	★★★★★

Ecosystem Services Assessment

Air Pollution Removal

[(CO), (NO₂), (SO₂), (O₃), (PM₁₀), (PM_{2.5})]

Carbon Sequestration

Groundwater Recharge

Nitrogen Uptake Potential Index

Stormwater Mitigation Potential Index

Surface Water Protection

NOTE: Ecosystem service monetary values are meant to inform decision making and tradeoffs but do not imply market value or value to be paid by the state for land acquisition

Benefits Rating

Ecosystem Services

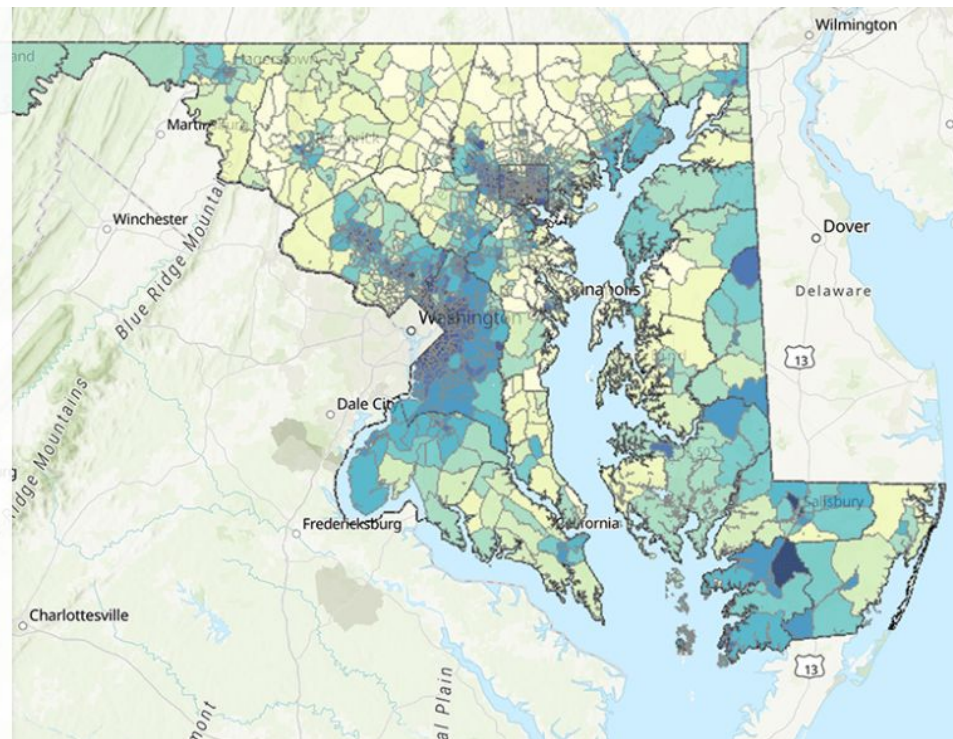

Ecosystem Service Name (and biophysical unit) <i>i</i>	Biophysical <i>i</i>	Economic <i>i</i>
Air Pollution Removal: Carbon Monoxide (CO) (kg per year) <i>i</i>		
Annual Parcel-Level Values*	140.51	\$206.52
Annual Per-Acre Values**	0.33	\$0.49
Air Pollution Removal: Nitrogen Dioxide(NO ₂) (kg per year) <i>i</i>		
Annual Parcel-Level Values*	1414.53	\$480.63
Annual Per-Acre Values**	3.37	\$1.14
Air Pollution Removal: Sulfur Dioxide(SO ₂)		

Maryland Department of the Environment (MDE)

MDE Environmental Justice (to be made public in the near future)

Welcome

The Maryland Department of the Environment (MDE or Department) implements environmental laws and programs to protect and restore the environment for the health and well-being of Marylanders. National studies show that Environmental Justice (EJ) Communities bear a disproportionate share of the negative environmental consequences resulting from industrial activities, land-use planning and zoning, municipal and commercial operations or the execution of federal, state, local programs and policies. MDE supports the goal of achieving environmental equity for all Maryland residents.
